attempts to show the religious dimension in many special spheres of man's cultural activity

in this series of penetrating and attractively readable essays stefan collini explores aspects of the literary and intellectual culture of britain from the early twentieth century to the present collini focuses on critics and historians who wrote for a non specialist readership and on the periodicals and other genres through which they attempted to reach that readership among the critics discussed are cyril connolly v s pritchett aldous huxley rebecca west edmund wilson and george orwell while the historians include a l rowse arthur bryant e h carr and e p thompson there are also essays on wider themes such as the fate of general periodicals the history of reading the role of criticism changing conceptions of culture the limitations of biography and the functions of universities explicitly addressed to the non specialist reader these essays make some of the fruits of detailed scholarly research in various fields available to a wider audience in a succinct and elegant manner stefan collini has been acclaimed as one of the most brilliant essayists of our time and this collection shows him at his subtle perceptive and trenchant best the book will appeal to and delight readers interested in literature history and contemporary cultural debate

gary day examines the role of culture in key developments in british society during the period 1930 to 1955 and presents a valuable historical perspective on current debates about the nature and role of culture in society

colin cooper's individual differences has been a favourite among lecturers and students of differential psychology since it was published in 1997 it is unique in its comprehensive coverage of both personality theories and the methodological issues associated with personality and psychometric testing this new edition has been fully revised and expanded to include recent developments in the field there is also a new chapter on emotional intelligence and expanded coverage of the big 5 model of personality and positive psychology cooper also discusses influential new fields such as cognitive epidemiology and a new chapter on practical applications demonstrates how what has been learned can be applied to everyday life from recruitment to predicting whether psychopaths will reoffend the accompanying website provides comprehensive support for both students and lecturers including mcqs sample exam questions powerpoint presentations revision flashcards interactive glossary and revision summaries an informative and enjoyable trip through personality and psychometrics this book is essential reading for all students wishing to gain a broad understanding of this fascinating field

choice recommended read psychological research into human intelligence and abilities presents us with a number of difficult questions are human abilities explained by a single core intelligence or by multiple intelligences how should abilities be assessed with tests unlike the problems which people normally have to solve or with practical problems closer to those encountered in life school and work do ability tests predict how a person will behave if so can they predict whether a person will succeed at school and at work intelligence and human abilities critically evaluates research evidence from the past 100 years to consider these and other issues it shows that despite the apparent contradictions in this research the evidence in fact supports one coherent model a fact which has clear implications for researchers educators and test users this clear and engaging text provides an up to date evaluation of what the empirical evidence tells us about the number nature and origins of human abilities it will be essential reading for students and practitioners of psychology and education and also for users of ability tests such as applied psychologists and personnel managers

designed for courses in introduction to mass communication introduction to mass media and media and society in this updated online edition john vivian provides a cost effective and accessible version of the original text taking the phrase using the media to teach the media literally with an extensive pin coded web site while the printed book is the core content the web site provides the energy and excitement of the media there is up to date coverage of industries and issues along with a thoughtful recounting of key events in media history to give students the insight they need to understand the complexity and impact of the media in the 21st century

this unusual textbook surveys art literature music and thought from the ancient world through the 14th century each chapter summarizes the history of the era examines the history of art and architectures with good color plates describes the literature and philosophy and concludes with a lengthy selection of primary sources this edition includes cue cats which are barcodes that link to web sites cunningham teaches theology at the u of notre dame and reich teaches at syracuse u in florence italy
